Mirage 5

Figure 1 consists of four diagrams illustrating the selection of pump locations for a water distribution system. The diagrams show the process of selecting 2 pump locations, then 1 pump location, and finally the optimal single pump location based on the 50/50 rule. The diagrams are labeled as follows:

- Select 2 Pump Locations:** Shows two potential pump locations (ALT LF and ALT RF) and two standard locations (STD).
- Select 1 Pump Location:** Shows one potential pump location (ALT LR) and one standard location (STD).
- Select 1 Pump Location:** Shows one potential pump location (ALT LR) and one standard location (STD).
- Select 1 Pump Location:** Shows one potential pump location (ALT LR) and one standard location (STD).

Dimensions for the system are provided: 21' width, 7' height, 45' length, 24' and 25' internal widths, and 41.75' total length.
